

**SMOKING  
SAFETY**

Effective date: 04/84  
Revision date : 04/10  
Review date : 12/12

---

Policy:

Support Hospital, Medical School and Clinical Board policy calling for a smoke free environment in health care facilities. The Physical Plant Department will enhance the fire safety of the facility and assist environmental efforts by designating where departmental employees may or may not use smoking materials.

---

Prevailing Codes and Standards:

LSUHSC Policy, TJC EC 02.01.03, University Hospital Safety Policy 4.4

---

Procedure:

**NO SMOKING**

All LSU Health Sciences Center buildings are smoke free facilities. Employees who smoke outside the buildings are encouraged to smoke in designated smoking areas if available, and to dispose of smoking materials in UL approved waste containers.

Smoking is prohibited outside the front entrances of the Physical Plant Building. A designated smoking area has been provided on the west side of the building.
